Each week through September we will have an outstanding panel of pediatric experts from different medical specialties for our series of educational programs that could save your child's life!

It is past time for parents to have an honest dialogue with pediatric medicine experts on what these "vaccines" are, what they are not, how they differ from traditional vaccines on the immunization schedule for children, what the real risks are with this new experimental technology for the "COVID jab", and what data has been hidden from the public ... especially parents...who have ultimate responsibility for making decisions for their children that could have life-long consequences.

BREAKING NEWS:

Whistleblower Report of Illegal DoD Activity The memorandum alleges Department of Defense (DoD) has unlawfully administered Emergency Use Authorized (EUA) products (i.e., products authorized but not approved by the Food and Drug Administration (FDA)) as if they were fully licensed FDA approved products. Military members have not been allowed to exercise their legal right to refuse EUA products, despite the Department of Justice's (DOJ) assertion that "Comirnaty-labeled" vaccines only became available for the DoD to order on 20 May 2022. Evidence also exists that the new "Comirnaty-labeled" products are not FDA approved in accordance with applicable laws.

Gender Dysphoria Exploitation and Malpractice

Dr. Vliet presents the tragic case of a young man coerced into permanent gender reassignment surgery from male to female, which has now prevented him from fulfilling his long-standing dream of being a father – and a better role model for his children than the abusive father he had. Richard decided courageously to speak out publicly about his horrible ordeal at the hands of *Kaiser Health System* to help prevent such tragic outcomes for other patients. He goes on the record on *America Out Loud* with his attorney and his nurse and shares the truth of what his life has become since he was surgically castrated and now living with an artificially created "vagina" that has led to permanent medical complications and daily physical and emotional pain. This is the ongoing tragedy of a political agenda that puts

ideology ahead of proper medical-psychiatric care and treatment in the push to change men to women and women to men in violation of basic biological facts and in violation of medical ethics and standards of care. It is also the story of a courageous attorney and military veteran who has taken on the challenge of this lawsuit to stop such monstrous abuse of other patients.
